* CME Credit Seminar

MISSION STATEMENT

The **Open Medical Institute** of the AAF is a global educational initiative founded in 1993. Our mission is to improve health care in countries in need, build local capacity and prevent brain drain.

PROGRAMS

Therefore, we offer multiple fellowships for interested physicians and health care providers to participate in short- and long-term educational programs (seminars and observerships). By establishing personal relationships, this program induces career long mentoring and fosters professional growth.
