Dear Professor Aulitzky,

Thank you for your generous help and contribution to support the Stroke prevention service development in the YSMU.

The new Panasonic ultrasound device will allow many patients with Cerebrovascular disorders to be better diagnosed and properly treated.

Through Salzburg International Medical Seminars Program during the years, you have left a wonderful legacy of more than 800 armenian doctors, who have attended these seminars and got new knowledge and new ideology.

We are grateful for all you have done, and pledge our best efforts in continuing our cooperation in the field of the medical education.

Please accept our warmest thanks.

Professor M. Narimanyan,

Rector of the YSMU
